The Science of Review™

WE'VE MADE A SCIENCE OF REVIEW

NVMS: The National Veterinary Medical Series

For students who need a concise, dependable review for the veterinary board exams, NVMS is the answer. Each title features current and clinically relevant information for diagnosing and treating a wide variety of problems.

Material is presented in a succinct outline format that makes specific points easy to find and reference. The chapters include a set of questions in the National Board Exam format with expanded answers highlighting critical points.

Students can count on the NVMS series for a consistently excellent review of the major topics they'll face on the boards and in practice.
